

Assignment – 2

Python Program

CODE:

```
import random
a=int(input("enter the starting value: "))
b=int(input("Enter the stop value: "))
i=1
while True:

temp=random.randint(a,b)
hum=random.randint(a,b)
if temp>75 and hum>25:
print("WARNING!!!")
else:
print("Normal")
```

The screenshot displays the OnlineGDB web interface in a browser. The address bar indicates the URL is `onlinegdb.com/online_python_compiler`. The left sidebar features a navigation menu with the following items: OnlineGDB beta, code, compile, run, debug, share, IDE, My Projects, Classroom, Learn Programming, Programming Questions, Sign Up, and Login. The main workspace contains a C++ program that uses a `while` loop to print 'Normal' and 'WARNING!!!' based on a condition. The output area shows the program's execution, with 'Normal' printed repeatedly. The browser's taskbar at the bottom shows various application icons and the system clock indicating 19:35 on 27-09-2022.
